REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: the present invention relates to ferroelectric memory device. The independent claims 1 and 7 recite a memory device having a potential detecting circuit for detecting a potential on a bit line exceeds a predetermined potential and outputting a detection signal and a sense amplifier which starts amplifying the potential on said bit line in response to the detection signal. The PRIO ART fails disclose or suggest such a potential detecting circuit for a memory device as described in the independent claims 1 and 7, therefore, claims 1-10 are in condition for allowance.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Vu A. Le whose telephone number is (571) 272-1871. The examiner can normally be reached on M-F (7:00-3:30).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Richard Elms can be reached on (571) 272-1869. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
